SPÉCIFICATIONS TECHNIQUES

Exclusive BENALU

A unique thickness gradient! The "double skin" technology allows the internal thickness to be varied over the height of the vehicle.

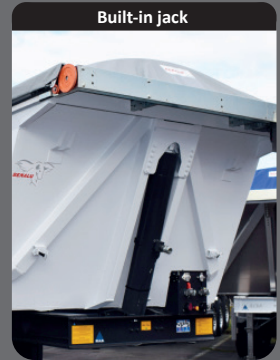

Optional universal door with bolts and gate.

Longitudinal tarpaulin by manual or electrical control cable.

Continuous welding process that guarantees perfect watertightness of the assemblies.

Jack with a lug firmly fastened which guarantees robustness suitable for building and public works.

OPTIONS & VARIANTES

Exclusive BENALU

Ultra-compact bumper specially designed to suit the finisher.

Aluminium sheeting protective bonnet suited to risks from building and public works.

Exclusive BENALU

Insulation technology specially designed for our double skin walls!
