Maisonneuve, historical French company based in Normandy France and founded in 1939, is a leading tank semi-trailer manufacturer for the transportation and distribution of all kinds of liquids.

The tanks are custom made as per our highest standards (EN ISO 9001) and above all reach the highest quality level in our newly built production plant in Cérences, Normandy.

Maisonneuve Citerne's strength is based on a solid and historical know-how provided by our highly qualified teams:

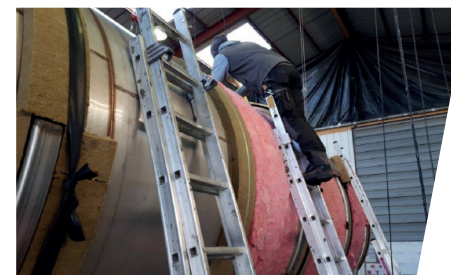

- Maisonneuve Citerne works in conformity with the current regulations.
- The presence and use of the technical means benefit of the current certifications and regulations

FOODTANKER

chassis : painted carbon steel or stainless steel

Vessel : 304 or 316 stainless steel

Use : Transport and or distribution of liquid foodstuffs

Volume : up to 36.000 l with baffles or separate compartments

## FOODTANKER

Liquid foodstuffs tank semi-trailer

- Up to 6 compartments ATP proofed
- Individual vehicle configuration to be as user friendly as much as possible
- Payload optimized tank semi-trailer
- Insulation of 75 mm or 100 mm thick
- Outer shell: polished stainless steel , aluminium or GRP with end bottoms in a RAL colour of your choice

A FEW OUT OF MANY OPTIONS !

- CIP line with Maisonneuve spray balls or others
- Side man holes
- Stainless steel or aluminium anti-sliding catwalk, possible for both sides, with a manual or air operated handrail

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

MILK  
TANKER

8

MILKTANKER

MAISONNEUVE 

Chassis : painted carbon steel or stainless steel

Vessel : 304 Stainless steel

Use : Milk collection and or transport

Volume : 30 000L , insulated

## MILKTANKER

Milk tank semi-trailer

- High speed milk collection device with automatic milk sampling and data recording system placed in a rear cabinet
- Side man holes
- Stainless steel milk hose carriers
- Insulated outlet pipe with bottom valves
- Ground level operation

A FEW OUT OF MANY OPTIONS !

- Rear self-steering axle
- Running gear is free selectable
- Intertank transfer
- Battery powered milk measuring system
- Stainless steel or GRP cladding with end bottoms in a RAL colour of your choice

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

**WATER  
TANKER**

10

**WATERTANKER**

**MAISONNEUVE** 

chassis : painted carbon steel or stainless-steel

Vessel : 304 or 316 stainless steel

Use : Transport of water, slurry, molasses and liquid fertilizer

Volume : 25 000L up to 30 000L

## **WATERTANKER**

Water & fertilizer tank semi-trailer

- Optimized tare weight for a maximum payload
- One compartment barrel with baffles
- One man hole DN 500 with pneumatic vent
- Central outlet pipe DN 100 to the rear
- Nearside walkway on top
- Side hose carriers
- Stainless steel rear cabinet

A FEW OUT OF MANY OPTIONS !

- Hydraulic driven discharge pump
- Pressure tank
- Painted end bottoms

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

**CHEM  
TANKER**

12

**CHEMTANKER**

**MAISONNEUVE** 

Chassis : painted carbon steel or stainless steel

Vessel : 304 or 316 stainless steel or Uranus B6

Use : Transport or collection of chemicals

Volume : Up to 37500L, one compartment with baffles

## CHEMTANKER

Transport or collection of chemicals

- Internal stainless steel bottom valve
- Stainless steel anti-sliding catwalk with handrail and ladder, possible for both sides
- Complies with the ADR directive (dangerous goods transport)
- Insulated tank with highly polished stainless steel, Aluminium or GRP outer shell with end bottoms in a colour of your choice

A FEW OUT OF MANY OPTIONS !

- Heating channels
- Side hose carriers
- Bespoke volume of each compartment
- Running gear of your choice

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

WINE  
TANKER

14

WINETANKER

MAISONNEUVE 

chassis : painted carbon steel or stainless steel

Vessel : 316 stainless steel

Use : Wine and spirits tank semi-trailer

Volume : Up to 32500L

## WINETANKER

Wine and spirits tank semi-trailer

- Vehicle configuration to be as user-friendly as much as possible
- Sealed in- and outlet pipes
- Payload optimized stainless steel chassis
- Tank capacity calibrated and certified

A FEW OUT OF MANY OPTIONS !

- Pumping system of your choice
- Stainless steel or aluminium anti-sliding catwalk, possible for both sides, with a manual or pneumatic handrail
- In compliance with the ADR directive
- Polished or marbled finish
- Bespoke capacity of each compartment

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

chassis : painted carbon steel or stainless steel

Vessel : 304 stainless steel

Use : Transport and distribution of AdBlue

Volume : Up to 30 000L

## AD-TANKER

AdBlue tank semi-trailer

- On-board pumping or measuring device, hydraulically or electrically driven , MID proofed
- Drum with 20 m distribution hose
- Distribution handle with filling tap

A FEW OUT OF MANY OPTIONS !

- Compact, short design for a better manoeuvring
- In compliance with the ADR directive
- Insulated tank

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

WASTANKER

Chassis : painted carbon steel or stainless steel

Vessel : 304 or 316 stainless steel or Uranus B6

Use : Transport and collection of liquid waste

Volume : Up to 28 000 L, one compartment

## **WASTANKER**

Liquid waste tank semi-trailer

- Complies with the ADR directive
- Extremely robust stainless steel construction
- Atmospheric or vacuum tank

A FEW OUT OF MANY OPTIONS !

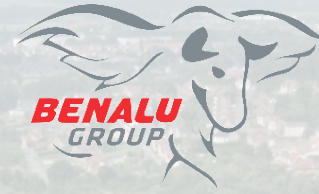

- Supply and installation of a vacuum pump
- Pipes up to DN 200
- Available as a tipping trailer

Have a look at our numerous options on [www.maisonneuve-citerne.com](http://www.maisonneuve-citerne.com)

## The BENALU group in a few words

In 1967, Hubert Pora and Dominique Bonduelle founded Benalu in order to develop and manufacture their invention: the aluminium tipper.

Today, the Benalu Group (Benalu, Bennes Marrel, Maisonneuve and Mega) – a subsidiary to the holding Arcole Industries ( [www.arcole-industries.com](http://www.arcole-industries.com)) - generates a 140 m Euro turnover and is a European leader for the production and manufacture of industrial vehicles for liquid and solid bulk transportation.

Production facilities are present in France ( Liévin – Calais-, Andrézieux-Bouthéon – Auvergne Rhône-Alpes- , Cérences -Normandy) and Poland, employing over 1200 highly qualifies people.

THE BENALU GROUP

### Our ambition :

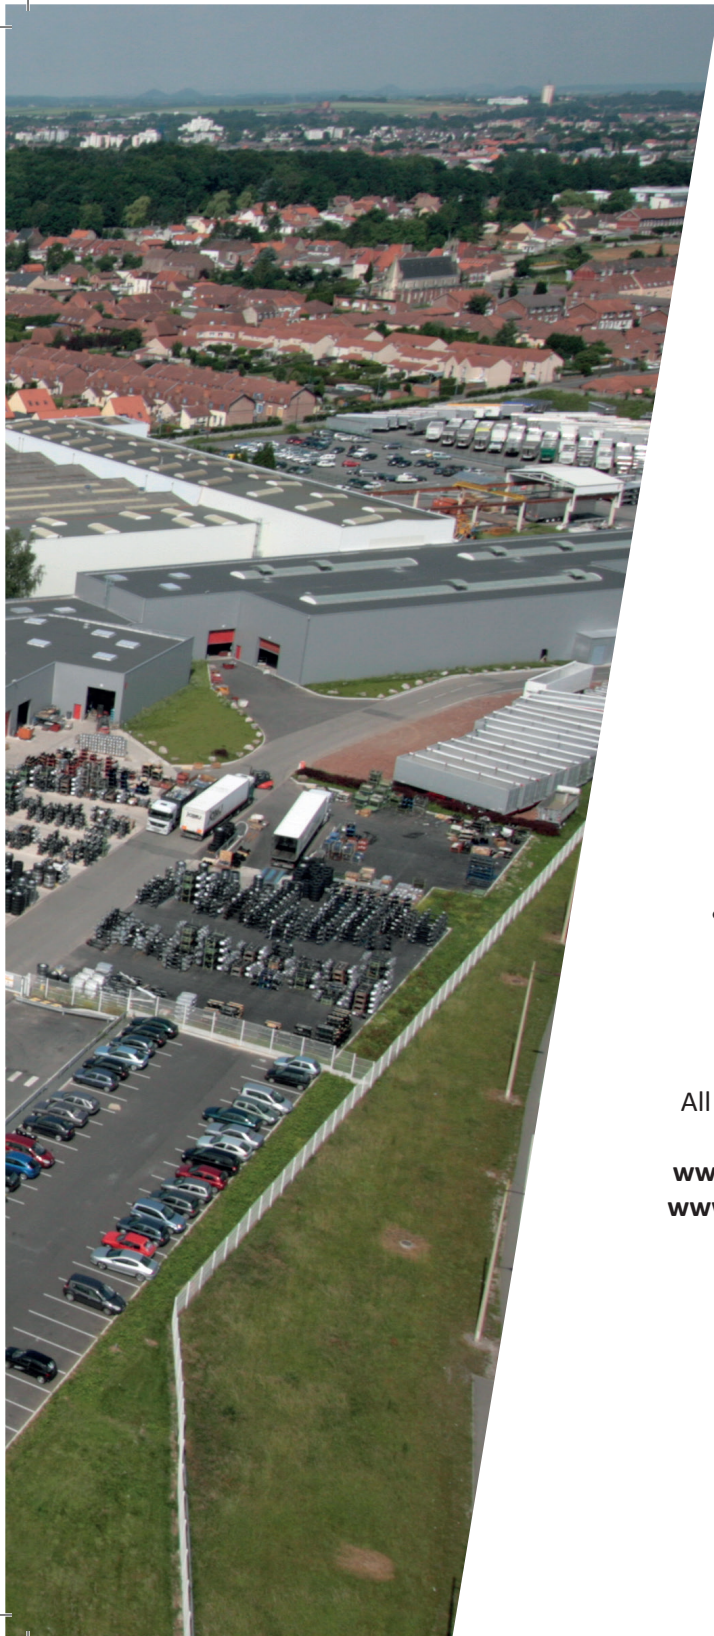

Thanks to the wide range of options offered we enable you to optimize your specific transport requirements.

We deliver a robust and innovative trailer which meets your day by day needs

Due to the permanent development of our conception, our customers benefit from an unprecedented payload.

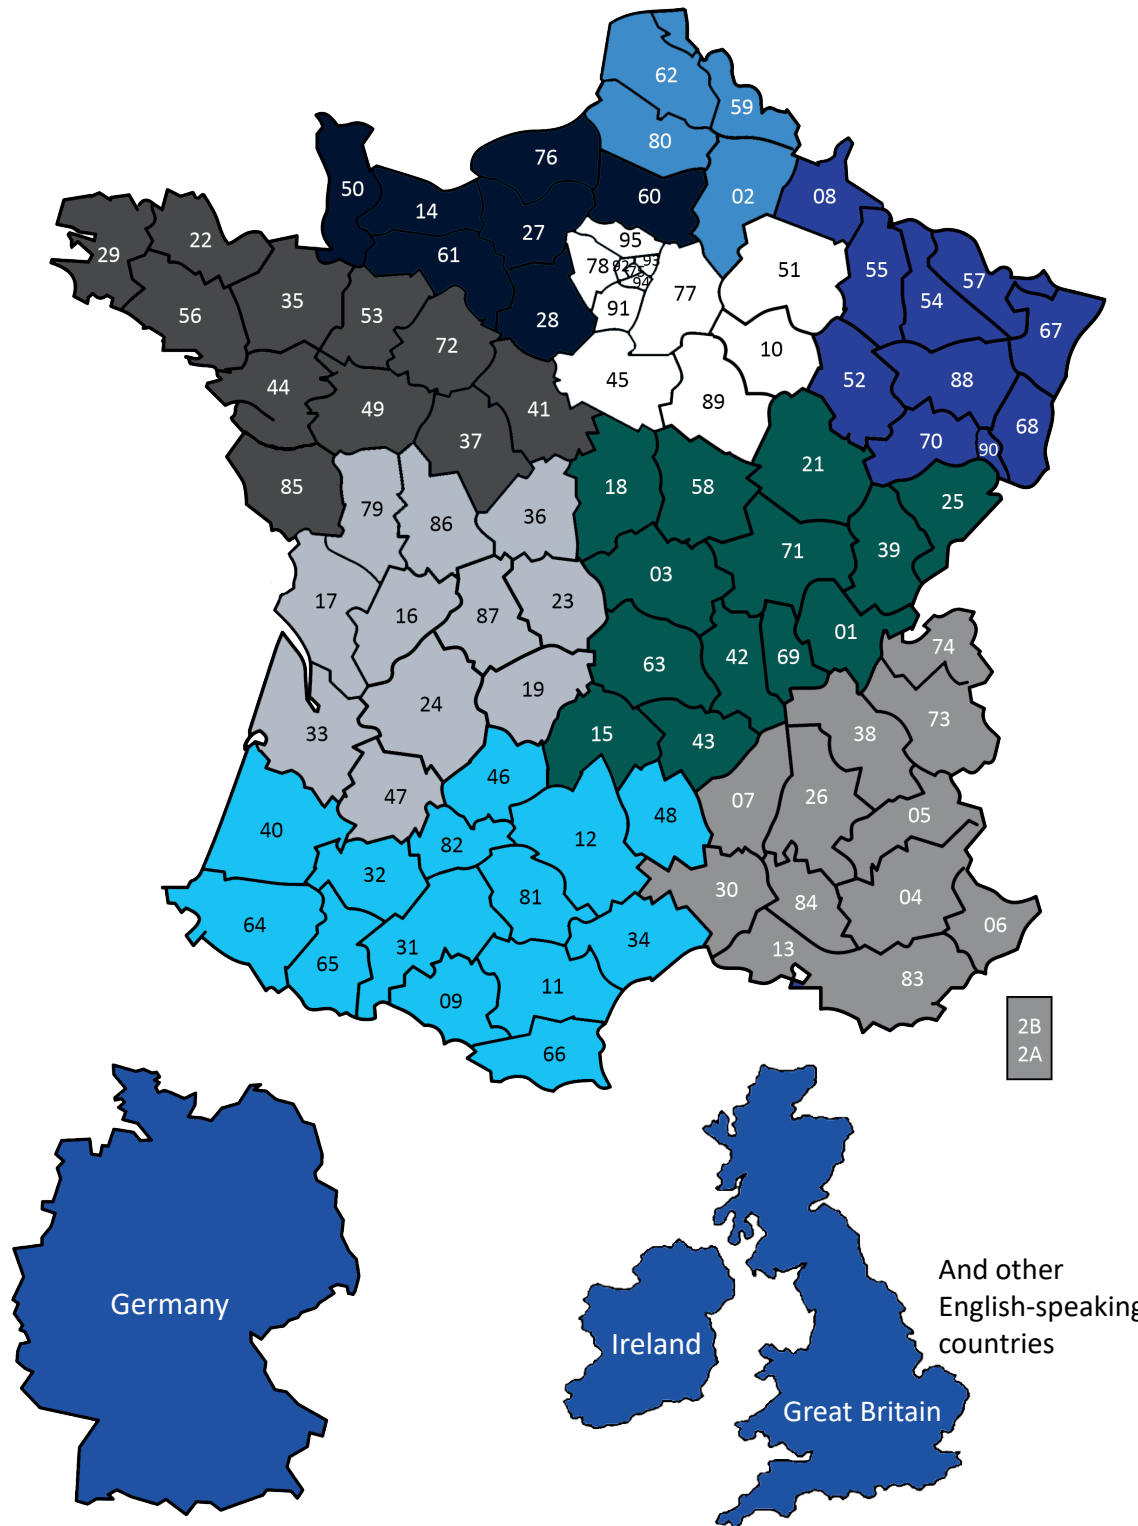

Our product range offers more than 60 references available in more than 1200 configurations. The latest production technologies enable us to provide a transport solution for all transportation's needs.

- Liquid tanks
- Powder tanks
- Construction tippers
- Agribusiness tippers
- Waste tippers
- Container chassis
- Swap bodies
- Agricultural trailers
- Equipment on rigid trucks
- Dollies
- Mobile floor vans
- Timber carriers
